

Dr. Nghi Tran Wins Prestigious Vitals Patients' Choice Award

Eighth Annual Vitals Patients' Choice Award Recognizes Dr. Nghi Tran for Outstanding Care Based on Patient Feedback

Dallas, TX -- Vitals, a leader in providing health care price transparency and consumer engagement solutions, is pleased to announce that **Dr. Nghi Tran** has been honored with the prestigious 2015 Vitals Patients' Choice Award. The Award, now in its 8th year, is a widely recognized distinction bestowed on doctors by the people they care for -- their patients.

Each year, Vitals receives millions of patient-reported ratings on various components of their doctor's care, including accuracy of their diagnosis, the amount of time they spent with the doctor, and the doctor's bedside manner and follow-up care. Only 5 percent of doctors received the Vitals Patients' Choice Award in 2015.

"At a time when people need understandable information about the quality of care, reviews have become important to the doctor selection process" said Mitch Rothschild, Founder and Chairman of Vitals. "We're proud to acknowledge the doctors regarded as the very best caregivers in their community as nominated by their patients."

Following the publication of **Dr. Nghi Tran's** selection for the Vitals Patients' Choice Award, American Registry seconded the honor and added Dr. Nghi Tran to The Registry™ of Business Excellence. An exclusive recognition plaque has been designed to commemorate the honor. The doctor's custom wall plaque is [shown here](#).

About Vitals

Vitals empowers everyone to shop like an expert for their health care. Vitals does this by creating an efficient health care marketplace for consumers - making them aware of the cost, quality and availability of health care provider options. Vitals leads the market with the first transparency and engagement platform that achieves measurable savings for consumers through a retail-like approach to purchasing health care services. Through health plan and employer clients and leading consumer websites, Vitals helps more than 120 million people each year access better, more affordable care.
